WARM PRAISE FOR JACOB AND BOSHER

Police Board Sends Them Engrossed Resolutions, as Mark of Esteem.

Usually a public official gets more blame than praise, but sometimes when men have served their city or country with an evidently unselfish motive, great faithfulness and distinguished ability, they live to see the return of gratitude both from associates in office and the people at large.

A few days ago Messrs. John F. Jacob and Charles G. Boshier, for many years police commissioners, received from the clerk of the Police Board handsomely engrossed copies of resolutions lately passed by that body setting forth the esteem in which they are held by their former colleagues.

The preamble and resolutions are given here:

"It seldom happens that one great branch of our city government loses the services of two of its staunchest officers. This occurred to the Police Department by the voluntary retirement of John F. Jacob and Charles G. Boshier, the one by resignation, and the other by the expiring of his term of office and his refusal to stand for re-election which was assured. The career of both gentlemen in their high and responsible official positions, and so similar, what may be said of the one, being eminently true of the other, that we deem it fitting to embody in one memorial the distinguished public services of this pair noble fraternal."

Keenly watched in discerning the right path, walking therein with sure and steady steps, wise and conservative in counsel, merciful, but inflexible in discipline, firm in maintaining carefully the elaborated plans of action, but respectful to their associates and to the authorities, they have for long and weary years toiled for the welfare of the city in general, and the Police Department in particular, free from selfish and sordid aims, and with an eye single for the public weal. It is by such self-sacrificing men that the foundations of municipalities are laid deep and their walls builded four square.

Therefore, be it resolved by the Board of Police Commissioners:

First, That we part from our former colleagues, John F. Jacob and Charles G. Boshier, with profound respect and sentiments of affectionate regard and unalloyed respect; expressing the hope, that for many years they may live in honor in the good order of our city and the fearless devotion to duty of the police force, the result of their wise foresight and unselfish labors.

Second, That these resolutions be spread upon the minutes and a copy of them sent to each of these gentlemen.

(Signed) RICHARD M. TAYLOR, President; GEORGE E. POLLOCK, Secretary.

August 6, 1903.

Messrs. Jacob and Boshier have sent appreciative acknowledgments to the board of receiving the resolutions. Both naturally prize them very highly.

A Relic of Nero.

The Italian government has undertaken excavations on the site of the Campus Martius, and has discovered remains and foundations of the monument erected by the Roman Senate 13 B. C. under the auspices of Nero and Caligula in honor of the Emperor Augustus after his victories in Spain and Gaul. The remains now discovered, together with those collected in 1880 and preserved in museums, are sufficient to allow of the reconstruction of the monument, which is a relic of the peace and art of the Augustan age.

MAKE FIGHT FOR CITY OFFICERS

That Understood to Be the Plan of the Richmond Labor League.

The Labor League of Richmond will meet Monday night at No. 210 East Broad Street to hear and consider the report of the special committee constituted to draft and submit a declaration of principles and purposes and by-laws for the government of the organization. Mr. John M. Ryall is president of the league and Mr. W. H. Nulton secretary.

With the adoption of the report of this committee the intentions of the new organization will be set forth authoritatively for the first time. It has been believed by many that the league contemplated placing a legislative ticket in the election this fall, but this has been denied by men who are influential in the organization.

It is understood that the league may and probably will participate in the selection of city officers next summer, but whether it will undertake to do this by placing a ticket in the field or by uniting its vote in the Democratic primary is yet problematical.

Keenly watched in discerning the right path, walking therein with sure and steady steps, wise and conservative in counsel, merciful, but inflexible in discipline, firm in maintaining carefully the elaborated plans of action, but respectful to their associates and to the authorities, they have for long and weary years toiled for the welfare of the city in general, and the Police Department in particular, free from selfish and sordid aims, and with an eye single for the public weal.
